
GENERIC HYBRIDIZATION ARRAYS
SOLID SUBSTRATE WITH GENERIC
MOLECULAR ADDRESSES

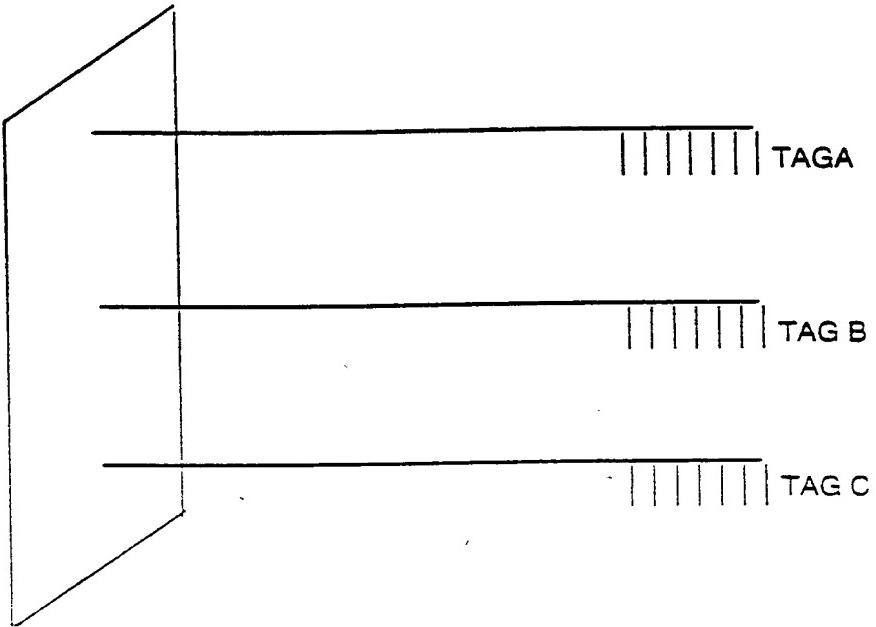

Fig. 1

Locus-specific tagged oligonucleotide:

synthetic sequence specific
for a particular oligonucleotide
tag on the array
(e.g., "Tag A," "Tag B," "Tag C,"
etc.)

sequence specific for the
amplification product of a
particular SNP (e.g., SNP "A,"
SNP "B," SNP "C," etc.)
